

## LS333ANS-2 Pool Luminaire

## Underwater

The LS333ANS-2 is a swimming pool-rated luminaire, and one of Lumascope's most popular luminaires. It is constructed entirely of 316 marine grade stainless steel, and has a special alignment feature to ensure the beam of light is perpendicular to the installation surface, even if the wet niche is not. An LED alternative to the halogen lamp option allows for the creative introduction of color and improved energy efficiency.

### Specifications
