

WATER TOWER LIGHTING

Application Guide

Altoona Water Tower in Altoona, Iowa

Lighting Products and Capabilities

Overview

Lumascape specializes in the design and manufacture of precision-engineered luminaires that have the power to transform any large structure, from architectural facades to iconic water towers.

Embrace the power of LED lighting solutions to witness the captivating transformation of any space while illuminating and enriching communities like never before.

Dynamic Lighting Will:

- Transform any structure into a beacon of pride within the community
- Extend the enjoyment of the area with a vibrant nighttime look
- Encourage community engagement
- Provide customized lighting displays for local events, causes, and holidays

Lighting Control

Flexible Control Interface

Easily view the selected zone, scene name, and design without the need to navigate through complex menus. Supports various third-party lighting control solutions, if required.

Features Include:

- Full digital control
- Wireless and remote control
- Option to add controls to Local Area Network
- Static white or RGBW color-changing systems
- In-house design support
- Commissioning and programming support
